

Wildwood

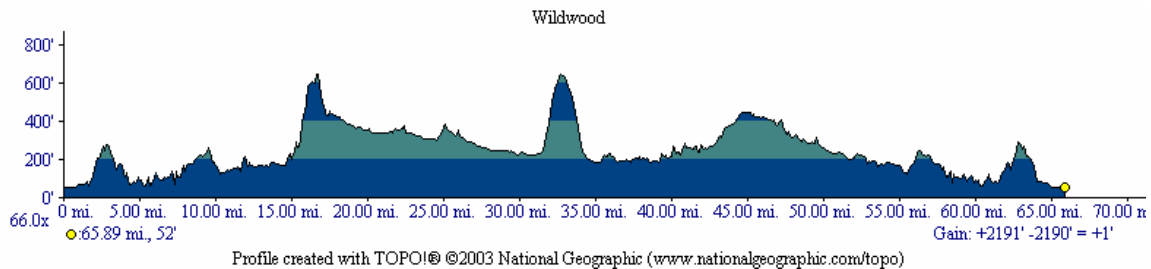

Description:

What would otherwise be a rather flat to rolling route is punctuated by two short, but VERY steep climbs. The first climb has pitches at 10% and Curtis Hill 12%. Regroup at store with phone at 30 miles in the small town Curtis.

Ride Statistics:

Distance: **65 Miles**
Climbing: **Short but Difficult**
Elevation Gain: **2000'**
Duration: **Plan 4 Hours**
Difficulty*: **3.5 out of 5**
